

# Red Shield™ Wall Systems Warranty

Firestone is proud to offer a 10-year performance guarantee for the entire wall cavity from the exterior sheathing out to the cladding.

The Red Shield warranty is much more than a product warranty ... it is a quality assurance program for the complete wall envelope system.

Firestone offers the construction manufacturing expertise, detail review, and experience to provide comprehensive protection.

## Red Shield Wall Systems Warranty covers:

- All Firestone-approved materials, including weatherization membrane, tape, flashings, caulk, and metal wall panels
- All transition details
- Installation

## Construction Phase

Approved installers and superior products, combined with technical guidance and on-site installation inspections, ensures that your design is precisely constructed and that your system performs to specification.

## Single-Source Solution

Your Red Shield Warranty from Firestone Metal Products carries with it a single source of responsibility. Should issues arise, Firestone will be your sole point of warranty contact.

# Another innovative solution from Firestone

With over five billion square feet of roofing and wall under protection, Firestone integrates Red Shield Wall Panel protection into our trusted Red Shield Roofing Warranty. The Red Shield Wall Systems 10 year

Warranty covers our products, materials, and labor - all from a single point of contact.

Our program exceeds the typical industry 'product warranty,' giving property owners real protection that is both unique and valuable.

No other wall panel system manufacturer offers anything like it. Only Firestone has the history of innovation, the products, and the people to stand behind such a comprehensive program.

## Red Shield Wall Systems Warranty owns the responsibility from the weather membrane outward

## Red Shield Wall Systems Warranty considerations

- Firestone's Red Shield program has over 5 Billion Square Feet of products under warranty
- Covers materials, labor, and transitions to approved building envelope materials
- When paired with a Firestone roofing system, integrates roof to wall with transitions, to protect the entire building envelope
- Firestone leads the industry in wall system protection ... Nobody Covers You Better
