A full range of exterior colors & coatings are available for the architectural market. For specific information about our available colors and coatings, visit us online for a comprehensive selection.

Finish Warranty: Available 20 year warranty, contact your Sales Rep for complete details.

Sonoma & Sonoma Light

Architectural Insulated Metal Panel

UNA•FOAM™ Sonoma insulated metal wall panels are well suited for exterior and interior partition wall applications. The lightly corrugated profile on both faces of the panel ensures symmetry from outside of the building to inside. The Sonoma wall panels may be used for exterior wall applications, but they are not recommended for use on exterior walls of low temp buildings.
